CONTENTS

	PAGE
BRÄNDLE, KURT. Quantitative studies of the reactions to horizontal angular accelerations in axolotls. I. The head-turning reflexes of normal animals	1
BRÄNDLE, KURT. Quantitative studies of the reactions to horizontal angular accelerations in axolotls. II. Head-turning reflexes in animals with a supernumerary pair of labyrinths	15
HIRSH, RICHARD and WIERSMA, C. A. G. The effect of the spacing of background elements upon optomotor memory responses in the crab: the influence of adding or deleting features during darkness	33
SOKOLOVE, P. G., BEISWANGER, C. M., PRIOR, D. J. and GELPERIN, A. A circadian rhythm in the locomotor behaviour of the giant garden slug <i>Limax maximus</i>	47
EATON, ROBERT C., BOMBARDIERI, ROCCO A. and MEYER, DIETRICH L. The Mauthner-initiated startle response in teleost fish	65
BRADLEY, T. J. and PHILLIPS, J. E. Regulation of rectal secretion in saline-water mosquito larvae living in waters of diverse ionic composition	83
BRADLEY, T. J. and PHILLIPS, J. E. The effect of external salinity on drinking rate and rectal secretion in the larvae of the saline-water mosquito <i>Aedes taeniorhynchus</i>	97
BRADLEY, T. J. and PHILLIPS, J. E. The location and mechanism of hyperosmotic fluid secretion in the rectum of the saline-water mosquito larvae <i>Aedes taeniorhynchus</i>	111
LENT, CHARLES M. The mechanism for co-ordinating metachronal limb movements between joined male and female <i>Artemia salina</i> during precopulatory behaviour	127
FENG, ALBERT S. and BULLOCK, THEODORE H. Neuronal mechanisms for object discrimination in the weakly electric fish <i>Eigenmannia virescens</i>	141
GILLARY, HOWARD L. Electrical potentials from the eye and optic nerve of <i>Strombus</i> : effects of electrical stimulation of the optic nerve	159
DEAN, R. L. and HARTLEY, J. C. Egg diapause in <i>Ephippiger cruciger</i> (Orthoptera: Tettigoniidae). I. The incidence, variable duration and elimination of the initial diapause	173
DEAN, R. L. and HARTLEY, J. C. Egg diapause in <i>Ephippiger cruciger</i> (Orthoptera: Tettigoniidae). II. The intensity and elimination of the final egg diapause	185
DEAN, R. L. and HARTLEY, J. C. Egg diapause in <i>Ephippiger cruciger</i> (Orthoptera: Tettigoniidae). III. Abnormal development through the final egg diapause	197
HEITLER, W. J. and BURROWS, M. The locust jump. I. The motor programme	203
HEITLER, W. J. and BURROWS, M. The locust jump. II. Neural circuits of the motor programme	221
ZOTTOLI, STEVEN J. Correlation of the startle reflex and Mauthner cell auditory responses in unrestrained goldfish	243
GIBBS, DANIEL and RIDDIFORD, LYNN M. Prothoracicotropic hormone in <i>Manduca sexta</i> : localization by a larval assay	255
