

INDEX TO AUTHORS

B

- Berk, L., Cheetham, R. W. S. and Shapiro, H. A. The biological basis of sexual behaviour in Amphibia: III. The role of distance receptors in the establishment of the mating reflex (coupling) in *Xenopus laevis* (the South African clawed toad): the eyes 60
- Berrill, N. J. and Cohen, Arthur. Regeneration in *Clavelina lepadiformis* 352
- Bliss, C. I. The size factor in the action of arsenic upon silkworm larvae 95
- Bowden, F. P. See MARSHALL and BOWDEN 383
- Brown, A. W. A. The excretion of ammonia and uric acid during the larval life of certain muscoid flies 131

C

- Callow, R. K. and Parkes, A. S. Production of oestrogenic substance by the bird testis 7
- Cheetham, R. W. S. See BERK, CHEETHAM and SHAPIRO 60
- Cohen, Arthur. See BERRILL and COHEN 352
— See WADDINGTON and COHEN 219

E

- Eastham, L. E. S. The rhythmical movements of the gills of nymphal *Leptophlebia marginata* (Ephemeroptera) and the currents produced by them in water 443

F

- Francis, Eric T. B. and Horton, Frances M. Some reactions of the Ammocoete 410

G

- Gray, J. Studies in animal locomotion: IV. The neuromuscular mechanism of swimming in the eel 170
— Studies in animal locomotion: V. Resistance reflexes in the eel 181
— Studies in animal locomotion: VI. The propulsive powers of the dolphin 192
- Gray, J. and Sand, A. The locomotory rhythm of the dogfish (*Scyllium canicula*) 200
— — Spinal reflexes of the dogfish (*Scyllium canicula*) 210
- Gunn, Donald L. and Kennedy, John S. Apparatus for investigating the reactions of land arthropods to humidity 450
- Gunn, Donald L. and Notley, F. B. The temperature and humidity relations of the cockroach: IV. Thermal death-point 28

H

- Hale, H. P. See MORAN and HALE 35
- Harris, J. E. The role of the fins in the equilibrium of the swimming fish: I. Wind-tunnel tests on a model of *Mustelus canis* (Mitchill) 476
- Heatley, Norman G. The digestive enzymes of the Onychophora (*Peripatopsis* spp.) 329
- Horton, Frances M. See FRANCIS and HORTON 410
- Hosker, Anne. Regeneration of feathers after thyroid feeding 344

J

- Jacoby, Fritz. The growth and morphology of fibroblasts *in vitro* in relation to certain properties of the plasma coagulum 393
— See WILLMER and JACOBY 237
- Johnson, M. L. The control of respiratory movements in Crustacea by oxygen and carbon dioxide. II 467

K

- Kennedy, John S. See GUNN and KENNEDY 450
- Kitching, J. A. The physiology of contractile vacuoles: II. The control of body volume in marine Peritricha 11

L

- Lafon, M. The action of Hanson's thymus extract on the mouse 140
- Le Mare, D. W. Reflex and rhythmical movements in the dogfish 429
- Löwenstein, Otto and Sand, A. The activity of the horizontal semicircular canal of the dogfish, *Scyllium canicula* 416

M

- Marshall, F. H. A. and Bowden, F. P. The further effects of irradiation on the oestrous cycle of the ferret 383
- McGowan, J. P. Suprarenal "virilism" in a domestic hen, its possible significance 377
- Moran, T. and Hale, H. P. Physics of the hen's egg: I. Membranes in the egg 35
- Moran, T. Physics of the hen's egg: II. The bursting strength of the vitelline membrane 41

N

Notley, F. B. See GUNN and NOTLEY 28

P

- Pantin, C. F. A. On the excitation of crustacean muscle: II. Neuromuscular facilitation 111
 — On the excitation of crustacean muscle: III. Quick and slow responses 148
 — On the excitation of crustacean muscle: IV. Inhibition 159
 Parkes, A. S. See CALLOW and PARKES 7
 Picken, L. E. R. A note on the mechanism of salt and water balance in the heterotrichous ciliate *Spirostomum ambiguum* 387
 — The mechanism of urine formation in invertebrates: I. The excretion mechanism in certain Arthropoda 399
 Ponder, Eric. On the spherical form of the mammalian erythrocyte: Part II. Spherical forms produced by lecithin and the photo-dynamic dyes 298

R

- Richardson, E. G. The physical aspects of fish locomotion 63
 Robertson, James D. The function of the calciferous glands of earthworms 279

S

- Salt, George. Experimental studies in insect parasitism: IV. The effect of superparasitism on populations of *Trichogramma evanescens* 363
 Sand, A. See GRAY and SAND 200
 — See GRAY and SAND 210
 — See LÖWENSTEIN and SAND 416
 Shapiro, H. A. The biological basis of sexual behaviour in Amphibia: I. The experimental induction of the mating reflex (coupling) in *Xenopus laevis* (the South African clawed toad)

- by means of pregnancy urine and of anterior pituitary extracts, with the production of fertilised ova 48
 Shapiro, H. A. The biological basis of sexual behaviour in Amphibia: II. The independence of ovulation and of coupling (the mating reflex) in *Xenopus laevis* (the South African clawed toad) 57
 — See BERK, CHEETHAM and SHAPIRO 60
 Slome, David. The diabetogenic hormone of the pituitary gland 1
 Smith, G. Pugh. The growth stimulation of blow-fly larvae fed on fatigued frog muscle. II 249

U

- Ullyott, Philip. The behaviour of *Dendrocoelum lacteum*: I. Responses at light-and-dark boundaries 253
 — The behaviour of *Dendrocoelum lacteum*: II. Responses in non-directional gradients 265

W

- Waddington, C. H. A failure of induction in normal development 75
 — The origin of competence for lens formation in the Amphibia 86
 Waddington, C. H. and Cohen, A. Experiments on the development of the head of the chick embryo 219
 Waddington, C. H. and Wolsky, A. The occurrence of the evocator in organisms which possess no nerve cord 92
 Washbourn, R. Metabolic rates of trout fry from swift and slow-running waters 145
 Willmer, E. N. and Jacoby, F. Studies on the growth of tissues *in vitro*: IV. On the manner in which growth is stimulated by extracts of embryo tissues 237
 Wolsky, A. See WADDINGTON and WOLSKY 92
 Wykes, Ursula. Observations on pigmentary co-ordination in elasmobranchs 460
