

### Corrigendum

**Dabiri, J. O.** (2005). On the estimation of swimming and flying forces from wake measurements. *J. Exp. Biol.* **208**, 3519-3532.

An error appears in Eqn 4 (p. 3521), which is propagated throughout the remainder of the manuscript. The correct version of the equation is as follows:

$$\mathbf{F} = \left( 1 + \frac{1}{\mathbf{C}_{AM}} \right) \rho \frac{\partial}{\partial t} \int \phi \mathbf{n} dS_V,$$

where the factor  $1/\mathbf{C}_{AM}$  denotes the element-wise inverse of the added-mass tensor.

The conclusions of the manuscript are unaffected by the error; however, the quantitative interpretation of the wake vortex ratio ( $W_a$ ) is revised accordingly.

The author apologises for any inconvenience this may cause the reader.
