

**Journal of Experimental Biology** publishes papers on the form and function of living organisms at all levels of biological organisation, from the molecular and subcellular to the integrated whole animal. Our authors and readers reflect a broad interdisciplinary group of scientists who study molecular, cellular and organismal physiology in an evolutionarily and environmentally based context.

**The Journal of Experimental Biology** [ISSN 0022-0949 (Print), ISSN 1477-9145 (Online)] is a continuation of **The British Journal of Experimental Biology** (ISSN 0366-0788)
