

A Handbook of Numerical and Statistical Techniques

With examples mainly from the life sciences

J. H. POLLARD

A handbook designed for experimental scientists, particularly those in the life sciences. It is for the non-specialist, and although it assumes only a little knowledge of statistics, and mathematics, those with a deeper understanding will also find it useful.

Nuclear Cytology in Relation to Development

F. D'AMATO

This book discusses comparatively, at the nuclear level, many aspects of the development of plants and animals. The information contained in the book has not been gathered together and reviewed previously.

Developmental and Cell Biology 6

£15.00 net

Analytical and Quantitative Methods in Microscopy

Edited by G. A. MEEK and H. Y. ELDER

This book describes some of the latest techniques that biologists are beginning to use in order to obtain numerical data on biological problems using microscopical techniques.

Animal Cytology and Evolution

Third Edition

M. J. D. WHITE

'M. J. D. White's book is a very valuable one. It has no peer in its field, and it will serve well all those who wish or require a . . . treatise on the chromosomes of animals that is written from an evolutionary viewpoint.'

Integration of Activity in the Higher Plant

Edited by D. H. JENNINGS

This volume discusses various aspects of the integration of physiological processes in the higher plant. It will interest all higher plant physiologists and can be considered as being a major contribution to the literature of what is colloquially called 'whole-plant physiology'.

Symposium of the Society for Experimental Biology 31

£20.00 net

Forthcoming (November)

Vertebrate Limb and Somite Morphogenesis

Edited by D. A. EDE, J. R. HINCHLIFFE and M. BALLS

The rapid growth of interest in limb and somite development in recent years is reflected in the contents of this book, which provides a full account of the current state of research in the field.

British Society for Developmental Biology Symposium 3

£20.00 net

Forthcoming (October)
